KNUTSFORD UNIVERSITY
FINAL YEAR PROJECT REPORT GUIDELINE

BY
ISAAC AFOAKWAH

FACULTY OF COMPUTING & DATA SCIENCE

PROJECT REPORT PARTS

- Front Matter
- Main body
- Back matter

FRONT MATTER

1. Front page
2. Title page
3. Declaration
4. Dedication
5. Acknowledgement
6. Abstract
7. Table of contents
   a. List of tables
   b. List of figures

FRONT PAGE

The front cover contains:

- Knutsford University must be printed
- Print the title of the project report in the middle of the page
- The full name of the author(s)
- Print the month and year of submission at the bottom

TITLE PAGE

The title page is the first page. It consist of five blocks of words:

1. Knutsford University
2. Title of the project
3. The full name and Index Number of the candidate preceded with ‘ BY ’ (titles such as Mr., Mrs., Reverend, etc. are not acceptable
4. The departments and faculty of the university to which the project is submitted as well as the purpose for which the work is required (written in lower cases)
5. Month and Year in which the work is submitted

DECLARATION

This has two declarations:

✓Candidates declaration and Supervisor's declaration

Candidate's Declaration

I hereby declare that this project is the result of my own original research and that no part of it has been presented for another degree in this university or elsewhere.

Candidate's signature: ……..

Date:……..

Name: *candidates' name printed*

DECLARATION

Supervisor's Declaration

I hereby declare that the preparation and presentation of the project were supervised in accordance with the guidelines on supervision of project laid down by Knutsford University.

Supervisor's signature: ……..

Date:……..

Name: *supervisor's name printed*

ABSTRACT

The abstract is a brief summary that tells the reader what the report is about and what the main conclusions are.

The following should be noted:

- It should not be more than 250 words ($^{1}/_{2}$ A4)
- It should not contain symbols / diagrams
- It should not contain subheadings and citations
- It should not be paragraphed

ACKNOWLEDGEMENT

- This section provides the student with the opportunity to express gratitude to those who directly assisted the student to successfully complete the project work.
- These may be mentors, supervisors, organizations, officials, chiefs, and colleagues, among others.
- Acknowledging God/ Allah or any other supernatural powers in documents of this nature is not allowed.

DEDICATION

- A student may dedicate the work to a person or group although this is not a requirement.
- The dedication page is another acknowledgment page.
- It should contain at most two lines, consisting of just a few words
- Example: to my family, in memory of my late father , etc.

TABLE OF CONTENTS

- The title **TABLE OF CONTENTS**, and not just CONTENTS, should be typed in **upper cases** and made bold.
- All chapter headings should be in upper case letters.
- Sub-headings should appear in title heads (first letters capitalized) and should be numbered.
- The corresponding pages of all headings and sub-headings should be indicated.

TABLE OF CONTENTS

Title		Page
DECLARATION		i
ABSTRACT		ii
CHAPTER		
ONE	INTRODUCTION	1
	1.1 Background of study	
	1.2 Statement of problem	3
TWO	REVIEW OF RELATED LITERATURE	4
	(provide appropriate subheadings)	

Note: The table of contents should be **double spacing**

LIST OF TABLE

The heading LIST OF TABLES is typed on the next page **after** table of contents

The words ‘ Table ’ and ‘ Page’ head their respective columns

LIST OF FIGURES

This comes **after** List of Tables and contains the list of figures in the report

The words ‘ figure ‘ and ‘ Page ’ head their respective columns

MAIN TEXT/ BODY

The main text consists of the following:

CHAPTER ONE : INTRODUCTION

CHAPTER TWO: LITERATURE AND REVIEW OF RELATED SYSTEMS

CHAPTER THREE: SYSTEM ANALYSIS AND DESIGN

CHAPTER FOUR: SYSTEM IMPLEMENTATION

CHAPTER FIVE:SUMMARY CONCLUSIONS AND RECOMMENDATIONS

REFERENCES

CHAPTER ONE INTRODUCTION

This chapter is made up of the following components.

1. Introduction [the chapter]
2. Background to the study
3. Statement of the problem
4. Objectives [Purpose of the study]
5. Significance of the study
6. Scope of the study
7. Limitations of the study
8. Organisation of the study
9. Definition of terms- if any

CHAPTER TWO
LITERATURE AND REVIEW OF RELATED SYSTEMS

- This chapter provides support for the study. The opening paragraph of the chapter should provide an overview of what is covered in the chapter.
- Appropriate sub-headings must be provided in reviewing the literature
- The chapter must be broken into sections to cover the important aspects of the review such as theoretical Framework, Technological Base and other relevant sub-headings.
- Review of at least two (2) similar systems
- Provide summary of the major findings of the literature review.(i.e. the state of the art) indicating the linkage with your study at the end.

CHAPTER THREE
SYSTEM ANALYSIS AND DESIGN

3.1 Introduction

This chapter explains how the system was developed. The introductory paragraph should provide an overview of what is covered in this chapter. The following sub-headings are used in this chapter:

3.2 Analysis of the existing system

- ✓ 3.2.1 Detailed description of the existing system (what is the existing system, define its scope, how does it work)
- ✓ 3.2.2 Challenges associated with the existing system
- ✓ 3.2.3 Detailed definition of the problem (System Request)

CHAPTER THREE
SYSTEM ANALYSIS AND DESIGN

This chapter explains how the system was developed. The introductory paragraph should provide an overview of what is covered in this chapter. The following sub-headings are used in this chapter:

3.3 Analysis of the Proposed System

- ✓ 3.3.1 Requirements of the proposed system
  - 3.3.1.1 Functional/Non-Functional requirements
  - 3.3.1.2 User interface requirements
  - 3.3.1.3 System Requirement (Hardware Software Platform)

CHAPTER THREE
SYSTEM ANALYSIS AND DESIGN

This chapter explains how the system developed. The introductory paragraph should provide an overview of what is covered in this chapter. The following sub-headings are used in this chapter:

3.4 Design and architecture of the Proposed System

- ✓ 3.4.1 Database Design (where applicable)
  - ✓ Entity Relationship Models, Data dictionaries
- ✓ 3.4.2 System Logic Design
  - ✓ UML diagrams, DFD, flowcharts
- ✓ 3.4.3 User interface Design
- ✓ 3.4.4 System Test Plan

CHAPTER FOUR
SYSTEM IMPLEMENTATION

4.1 **Introduction** The opening paragraph of the chapter should provide overview of what is covered in the chapter.

4.2 Programming languages/Technologies applied

✓ Justification of above

4.3 Frameworks and development platforms/ tools

4.4 Coding / evidence (in the form of snippets)

4.5 Testing results/evidence (preferably in table format)

4.6 Deployment (User/System Documentation)

CHAPTER FIVE
SUMMARY, CONCLUSION AND RECOMMENDATION

Summary

Give an overview of the research study and methodology

Provide summary of key findings of the study

Conclusions

This section is based on the results and findings

The researcher indicates whether the findings confirm or are inline with the project objectives

CHAPTER FIVE

- ✓What is new?
- ✓What has the study brought to the fore?
- ✓What is the general feeling concerning the results and findings of the study?

REFERENCES

- ✓ The American Psychological Association (APA) referencing style is used
- ✓ In all citations or quotations indicate author(s), year and page(s)

Example:

- ✓ Nitko (2000, p.36) noted that "validity is the soundness of interpretation and use of assessment results"
- ✓ When a work has more than two authors, cites all authors for the first time the reference occur. In subsequent citation include only the surname of the first author followed by "et al."

APPENDICES

This constitute the back matter and follows after the References.

There should be a fresh page with the word "APPENDICES", centered on the page preceding the various appendices.

E.g. Appendix 1: Code Snippets
